

The Hungarian Philatelic Society of Great Britain

Established as the *Magyar Philatelic Society* in 1964, we exist to foster the common interests of collectors of all aspects of Hungarian philately, including not only mainstream stamp issues and postal history, but also the effects of two world wars and the fascinating provisional issues associated with all the boundary changes.

Our Patron is Dr Géza Hommonay, well-known as the President of MAFFIT, and for his award-winning study of the 1867 issue.

In addition to regular meetings, the Society offers members a range of services, including:

- An award-winning quarterly Journal
- Regular auctions devoted to Hungarian material
- An exchange packet circuit
- A website with much useful information, www.hpsgb.com
- Strong links with Sister societies in Hungary, Germany, the Netherlands and the USA
- Free advice from expert members
