† The use of this form with parcels sent abroad is mandatory under postal regulations if, due to different delivery routes or other circumstances (*e.g.* war), the delivery fee could not be determined at the time of dispatch, or if the sender requested that the addressee receive the parcel duty-free. The delivery fee and any customs duties are collected upon return of the franked note. (Hodobay postal stationery catalogue, p163.) Coat includes the use charge.

†† First value is for the low-value type form with impressed postage fee, second is believed to be the bare higher value form.

††† Form with 2 f imprint introduced in March 1917.

‡ The previous 4 f envelopes will be used only for open sendings sealed after inspection with five seals. When these run out the price will rise to 5 f. Meanwhile the 3 f envelopes introduced at this time will be used only for pre-sealed sendings using two seals corresponding with two holes on the flap. **PTRT 35, 30.07.1908.**

* Previous small versions with added postage stamps of 30 f for single and 70 f for COD forms. To be withdrawn 31.10.1922.

** Large format cards with 10 fillér imprint withdrawn in **PTRT 55, 26.07.1922.**

*** Correction/clarification of previous change.

Posta-távirda értékcikkek és értékes nyomtatványok újabb ára.

PTRT 35, 30.07.1908: Issuance of double-stamped money envelopes. ,

For the time being, I will be issuing envelopes that can be sealed with two seals for money letters to be sent closed, which are 170/125 mm. in size, made of yellowish-brown hemp paper with a scalloped edge and two round openings indicating the location of the seal impressions.

The price of such envelopes is three (3) fillér each.

Therefore, money letters to be sent closed (unread) can now be accepted by post and telegraph offices in envelopes with two seals if the envelopes used for this purpose were produced by the treasury. On the other hand, money items may not be accepted for postal delivery in two-seal envelopes that may have been put into circulation by private industry.

The existing five-seal canvas-lined money envelopes will continue to be in circulation and only these should be used for money letters sent open (*i.e.* read). The price of the latter envelopes will remain 4 *fillér* per piece until the stock already purchased lasts, but thereafter it will be 5 *fillér*, as indicated by the inscription to be applied in the upper left-hand corner of the address side of the envelope under the Hungarian crown and post horn. The two-seal envelopes, just like the five-seal envelopes, should be ordered by post and telegraph offices in packs (50 pieces) in the prescribed manner. The post (telegraph) offices of the Hungarian Empire should record this in Section 4, Section 23, of Part II of the “Postal Tariffs and Business Regulations”.

PTRT 27, 28.03.1924: Regularization of postal orders with receipt coupons.

In order to simplify and speed up the postal order collection service, postal order forms will be provided with a receipt coupon. The sender will fill in the name of the recipient and the destination, as well as the amount in Hungarian crowns, on this coupon. The receiving postal employee will only record the due fees and the receipt number and affix it with the stamp of the office, the date, and his own signature.

For the time being, only the voucher forms for domestic circulation will have such coupons; for foreign ones only when the currently available stock runs out. The new forms will be sold by the offices after their current stock of voucher forms runs out.

The current money order forms without a consignment note may only be used by individual senders until the end of the current year. Post offices should inform the parties of this when selling money order forms.

When determining their requirements for form No. 156 entitled “On Postal Money Order Forms”, the offices should take into account that fewer and fewer of these forms will be needed until the end of the year, and next year only as many as the number of foreign money orders are sent by them.

Those parties who send money orders with a consignment note shall continue to use the current money order forms without a consignment note. To meet their needs in this regard, the offices at which such money orders are sent shall retain a year’s supply of the current money order forms.

[1] PRT51, 05.09.1925: Issuance of international postal order forms and cash on delivery slips in a new format.

In accordance with the resolutions of the Stockholm Postal Convention, international postal order forms and cash on delivery slips with a new format and wording will be put into circulation on 1 October 1925, on which occasion I will also provide the foreign postal order forms with a delivery receipt, following the model of the domestic postal order forms.

I will have the foreign postal order forms and the cash on delivery slips, which can be used in both foreign circulation, produced with Hungarian-French text, the postal order form on the previous yellow paper, and the cash on delivery slip on blue paper again.

I would like to note that the text on the new international money order form, enclosed in a square frame at the top right corner, regarding the conversion of the money order abroad, is ignored by the receiving offices; therefore, it does not need to be filled in when receiving it.

The offices shall determine the number of old foreign money order forms and cash on delivery forms without coupons that have not been used by September 30th, and shall record them in a statement, and their value shall be accounted for in the September monthly deduction book, in addition to the statement and the withdrawal of money order forms and cash on delivery forms, and the valuables warehouse shall account for them in the issue. The treasury post offices and the valuables warehouse shall immediately transfer the withdrawn money orders and cash on delivery forms after settlement. Etc.

[2] Issuance of postal order forms in green and grey and white. I hereby inform the post offices that, due to the shortage of paper, postal order forms with only Hungarian text will, in addition to the existing pink forms, be issued in green and greyish-white until further notice, which the post offices will use in domestic circulation in the same way as the pink forms. There will be no change in the text of the forms. PTRT 28, 03.02.1919.

[3] Includes 20 *f* fiscal stamp.
